The personal and social effectiveness of people is one of the most complex, poorly understood, and understudied topics in the field of human behavior. If you are like most people, you're probably trying to be more effective and engaging with friends and family, or with strangers and coworkers. Unfortunately, the fact that it's becoming harder and harder to engage with people in ways that really help them (and you) means that we have to come up with new ideas about what we can do to help make ourselves more effective in our social lives.
